> Ma Samuel Brown, M. Inst. C.E., our new Surveyor General, arrived to-day by the Oceanic. Mr Brown has had a large ongineering experience, his last post being that of Government engineer in Cyprus. He will soon find his hands full of work, as the Public Works Department has been short-handed for a long time, and his predecessor left many important works in arrears and in a rather muddled condition We trust Mr Brown will be able shortly to tackle the question of our water supply and that he may soon give us water instead of mud-grael to drink. With a new building ordinance, a complex, unpopular system of drainage, an unfinished water supply, imperfect roads and a thousand and one other items to stiend to, Mr Brown will find his new position by no means a sincours. I we get less mellifluous talk and more honest work, the Colony will rejoice at the change in the command of the Public Works De-

THE sampan people at Murray Pier had an important lesson read to them to-day, One of the officers of H. M. S. Muting called a sampan at the pier shortly after seven y sterday evening to take him to his vessel. When the sampan bad shoved off, the people stopped and inquired what the fee was to be, indicating that it must be thirty cents. This extertionate sum was refused and the fare desired to be taken back to the wharf. The boat people refused to row back, and he had to do so himself. The complainant stated that the distance was usually covered by a sampan in twelve or thirteen minutes. He further stated that bluejackets who broke leave frequently blamed the extortionate fees charged by the sampan people. The evidence of the complainant was corroborated by the policeman on duty at the pier, and his Worship fined the boatman \$10 with the alternative of a month's hard labour. The fine was

FRAGRANT WATERS! MURMUR That everyone will admire the fair spirit expressed by H. E. the Governor in his remarks on the resumption of land by the Government, under the proposed Crown Lands Resumption Ordinance. That the Governor there speaks of very full and atmost compensation, and indeed His Excellency has apparently imbibed some of the spirit of the Land Commission Report since he last dealt with this subject. That nothing whatever was heard of

absolute discretion during the remarks made the other day. That had the same spirit been present during the Praya Reclamation discus-Sion, quite a different impression would have been created from that now left upon this community.

That while residents generally must sympathise with Governor Das Voeux in his desire to improve the slums, and hope that he may succeed in gradually sweeping away the filth and schalor of Taipingshau, older residents will feel that he has set himself a task of the very toughest kind.

That it will be difficult to convert the lower class Chinese into a belief in windows. ventuators, light and fresh air. That my personal observation proves that a Chinaman will shut up or stuff with bags any aperture through which light or air may find its way, on the granted that he cannot tolerate anything in the shape of a draught. That as an experiment, however, this proposed reform will be hailed with delight

AN INTERESTING LETTER FROM A VETERAN.

As this is Julilee year it tends to make one look back and think of the flight of time? and in this way I am reminded that I am one of the veterans in the sale of your valuable and successful medicine. I have sold it from the very first, and have sent it into every country in England and many parts of Scotland. Well do I remember the first circular you sent out some nine or ten years ago. You had come to Eugland from America to introduce Mother Seigel's Curative Syrup, and I was struck by a paragraph in which you need these words :- Being & stranger in a strange land. I do not wish the people to feel that I want to take the least advantage over them. I fee that I have a remedy that will oure disease, and have so much confidence in it that I wath I rise my agents to refund the money if people should say that they have not beneatted by its use. I felt at once that you would naver say that unless the medicine had merit, and I applied for the agency, a step which I now look back upon with pride and

Balisfaction. Ever since that time I have found it by far the best remedy for Indigestion and Dyspepsis I have met with, and I have sold thousands of boitles. It has never failed in any case where there were any of the following symptoms :- Nervous or sick head-che, sourness of the stomach, rising of the fond after eating, a sense of fulness and heaviness, dizziness, bad breath, slime and mucus on the g ms and testh, coustipation. and yellowness f the eyes and skin, duit and sleepy sensations, ringing in the cars, heartburn, loss of appetite, and, in short wherever there are signs that the system clogged, and the blood is out of order. Upon repeated inquiries, covering a great countersignature, and take immediate devariety of ailments, my dustomers have al- livery of their Goods from alongside. ways answered. I am better, or I am perfectly well . What I have seldom of Vestel will be landed and stored at Connever seen before in the case of any medi- signees risk and expense. cine is that people tell each other of its virtues and those who have been oured say. the suffering Go and get Mothero Seigel's Carative Syrup, it will make you well. Out of the hundreds of ourse I will name one or two that happen to come into my mind.

Two old gentlemen, whose names they would not like me to give you, had been martyre to Indigestion and Dyspepsis for many years. They had tried all kinds of medicine without relief. One of them was THE Undersigned, Agents for the above so bad he could not bear a glass of ale. Both were advised to use the Syrup and RISKS against FIRE at Unrent Rates. both recovered; and were as hale and hearty

A remarkable case is that of a house painter named Jeffries, who lived at Penshurst in Kent. His business obliged him to expose himself a great deal to wind and weather, and he was seized, with thoumstism, and his joints soon swelled up with dropsy, and were very stiff and painful. test the friendship of Roumania towards Nothing that the doctors could do seemed to reach the seat of the trouble. It so crippled him that he could do hardly any work, and for the whole of the winter of 1878 and 79, he had to give up and take to garde report that Queen Natalie and her his bed. He had been afflicted in this sorry son, King Alexander, will meet within the way for three years, and was gefting worn out and discouraged. Besides, he had spent over £13 for what he called doctor's tuff without the least benefit. In the Spring he heard of what Mother Seigel's Curative Syrup has done for others and bought a 2s. bd. bottle of me. In a few days he sent me word he was much better -before he had fi ished the bottle. He then sent to me for a 4s. 6d. bottle, and as I was going that way I carried it down to him myself. On getting to his house what was my astonishment and surprise to find London, April 26 .- The tide of emigra him out in the garden weeding an onion bed. I could hardly believe my own eyes,

> You ought not be out here, man, it may be the death of you, after being laid up all winter with rheumatism and drops; His reply was : - There is no danger. The weather is tine, and Mother Seigel Curative Syrup has done for me in a few days what the doctors could not do in three years. I think I shall got well now.

and said :-

He kept on with the Syrup, and in three weeks he was at work again, and has had no return of the trouble for now nearly ten years. And medicine that can do this should be known all over the world. Yours faithfully,
